#### REPORT OF THE DIRECTORS

The directors present their report and the annual audited consolidated financial statements of the Group for the year ended March 31, 2020.

#### PRINCIPAL ACTIVITIES

The principal activities of the Company are investment holding and garment trading. The principal activities of subsidiaries are set out in Note (29a) to the consolidated financial statements.

#### FINANCIAL STATEMENTS AND APPROPRIATIONS

The financial performance of the Company and its subsidiaries (the "Group") for the year ended March 31, 2020 and the financial position of the Group are set out in the consolidated financial statements on page 8 to 10.

The directors do not recommend the payment of any dividend for the year.

# PROPERTY, PLANT AND EQUIPMENT

Details of movements in property, plant and equipment are set out in Note (10) to the consolidated financial statements.

# SHARE CAPITAL

Details and movement of share capital of the Company are set out in Note (28) to the consolidated financial statements.

### **DIRECTORS**

#### (a) Directors of the Company

The directors of the Company during the year and up to date of this report were:

Deepak Kumar SETH Mahesh Kumar SETH Pulkit SETH Abhishek GOYAL Gurusankar GURUMOORTHY Sumit LATH

(Appointed on August 13, 2019) (Appointed on October 31, 2019)

There being no provision in the Company's Articles of Association to the contrary, all directors continue in office for the ensuing year.

#### REPORT OF THE DIRECTORS (CONT'D)

#### **DIRECTORS (CONT'D)**

#### (b) Directors of the Company's subsidiaries

Amit KUMAR
Deepak Kumar SETH
Pulkit SETH
Shefali SETH
Sweta AGARWAL
Sumit LATH
Gurnsankar GURUMOORTHY
Frank Petrus SMITS

(Appointed on July 10, 2019) (Resigned on July 10, 2019)

#### MATERIAL INTERESTS IN TRANSACTIONS, ARRANGEMENTS OR CONTRACTS

Except for the related party transactions as disclosed in Note (32) to the consolidated financial statements, no transactions, arrangements or contracts of significance to which the Company's ultimate holding company, subsidiaries or fellow subsidiaries was a party and in which a director of the Company or an entity connected with a director had a material interest, whether directly or indirectly, subsisted during or at the end of the financial year.

# ARRANGEMENTS TO PURCHASE SHARES OR DEBENTURES

At no time during the year was the Company, its ultimate holding company or fellow subsidiaries, a party to any arrangements to enable the directors of the Company to acquire benefits by means of the acquisition of shares in, or debentures of, the Company or any other body corporate.

#### MANAGEMENT CONTRACTS

No contracts concerning the management and administration of the whole or any substantial part of the business of the Company or its subsidiaries were entered into or existed during the year.

#### PERMITTED INDEMNITY PROVISION

A permitted indemnity provision for the benefit of the directors of the Company was in force during the year and up to date of this report.

## **BUSINESS REVIEW**

No business review is presented as the Company has been able to claim an exemption under section 388(3) of the Hong Kong Companies Ordinance (Cap. 622) since the Company is a wholly owned subsidiary of another body corporate as at the end of reporting period.

# PEARL GLOBAL (HK) LIMITED REPORT OF THE DIRECTORS (CONT'D)

# **AUDITORS**

The Company's auditors, Messrs. Louis Lai & Luk CPA Limited, retire and, being eligible, offer themselves for re-appointment.

On behalf of the Board

# INDEPENDENT AUDITOR'S REPORT TO THE MEMBER OF PEARL GLOBAL (HK) LIMITED

(incorporated in Hong Kong with limited liability)

#### **Qualified Opinion**

We have audited the consolidated financial statements of Pearl Global (HK) Limited and its subsidiaries ("the Group") set out on pages 8 to 64, which comprise the consolidated statement of financial position as at March 31, 2020 and the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, except for the effects of the matter described in the Basis for Qualified Opinion section of our report, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at March 31, 2020, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA") and have been properly prepared in compliance with the Hong Kong Companies Ordinance.

#### Basis for Qualified Opinion

No physical counting against inventories as at March 31, 2020 was conducted by the component auditor of a subsidiary at the end of the reporting period due to the lockdown in Jakarta during the outbreak of COVID-19 and no any other alternative procedures have been performed. In consequence we were unable to carry out auditing procedures necessary to obtain adequate assurance regarding the quantities and condition of inventories, appearing in the consolidated statement of financial position at US\$3,372,199. There were no other satisfactory auditing procedures that we could adopt to obtain sufficient evidence regarding the existence and valuation of inventories.

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSAs") issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the HKICPA's Code of Ethics for Professional Accountants ("the Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified opinion.

# INDEPENDENT AUDITOR'S REPORT (CONT'D) TO THE MEMBER OF PEARL GLOBAL (HK) LIMITED (incorporated in Hong Kong with limited liability)

# Material Uncertainty Related to Going Concern

We draw attention to Note (2a) in the financial statements, which indicates that the Group's current liabilities exceeded its current assets by US\$4,872,132. As stated in Note (2a), these events or conditions indicate that a material uncertainty exists that may cast significant doubt on the Group's ability to continue as a going concern. Notwithstanding these conditions, the going concern basis has been adopted because the ultimate holding company has agreed to provide adequate funds for the Group to meet its liabilities as they fall due. Our opinion is not modified in respect of this matter.

### Information Other than the Consolidated Financial Statements and Auditor's Report Thereon

The directors are responsible for the other information. The other information comprises the information included in the directors' report but does not include the consolidated financial statements and our auditor's report thereon. Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon. In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

#### Responsibilities of Directors and Those Charged with Governance for the Consolidated Financial Statements

The directors are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by HKICPA and the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of the consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

# INDEPENDENT AUDITOR'S REPORT (CONT'D) TO THE MEMBER OF PEARL GLOBAL (HK) LIMITED

(incorporated in Hong Kong with limited liability)

#### Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. This report is made solely to you, as a body, in accordance with section 405 of the Hong Kong Companies Ordinance (Cap.622) and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

# INDEPENDENT AUDITOR'S REPORT (CONT'D) TO THE MEMBER OF PEARL GLOBAL (HK) LIMITED

(incorporated in Hong Kong with limited liability)

# Auditor's Responsibilities for the Audit of the Consolidated Financial Statements (Cont'd)

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

#### NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

#### GENERAL

Pearl Global (HK) Limited (the "Company") is a company incorporated in Hong Kong with limited liability. The principal activities of the Company are investment holding and garment trading. The address of its registered office is Room 1801, 18/F., Kimberland Centre, No. 55 Wing Hong Street, Cheung Sha Wan, Kowloon. The directors consider that the ultimate holding company is Pearl Global Industries Limited, a company incorporated in India. The shares of the ultimate holding company are listed on the Bombay Stock Exchange and National Stock Exchange in India.

#### 2. PRINCIPAL ACCOUNTING POLICIES

#### a. Basis of Preparation

These consolidated financial statements have been prepared in accordance with the Hong Kong Financial Reporting Standards ("HKFRS(s)") (which also include Hong Kong Accounting Standards ("HKAS(s)") and Interpretations ("Int(s)")) issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA"), accounting principles generally accepted in Hong Kong and the Hong Kong Companies Ordinance.

The consolidated financial statements have been prepared under the historical cost convention and are presented in United States Dollars (US\$), which is also the Group's functional and presentation currency.

The preparation of consolidated financial statements in conformity with HKFRSs requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Group's accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in Note (4) to the consolidated financial statements.

As at March 31, 2020, the Group's current liabilities exceeded its current assets by US\$4,872,132. Notwithstanding these conditions, the going concern basis has been adopted because the ultimate holding company has agreed to provide adequate funds for the Group to meet its liabilities as they fall due.

#### NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

# 2. PRINCIPAL ACCOUNTING POLICIES (CONT'D)

#### b. Changes in Accounting Policies and Disclosures

The HKICPA has issued a number of new HKFRSs and amendments to HKFRSs that are first effective for the current accounting period of the Group. Of these, the following developments are relevant to the Group's financial statements:

- (i) HKFRS 16, Leases
- (ii) HK(IFRIC)-Int 23, Uncertainty over Income Tax Treatments
- (iii) Amendments to HKFRS 9, Prepayment Features with Negative Compensation
- (iv) Amendments to HKAS 19, Plan Amendment, Curtailment or Settlement
- (v) Amendments to HKAS 28, Long-term Interests in Associates and Joint Ventures
- (vi) Amendments to HKFRSs Annual Improvements to HKFRSs 2015-2017 Cycle

Except for HKFRS 16, Leases, none of the developments have had a material effect on how the Group's results and financial position of the current or prior periods have been prepared or presented. The Group has not applied any new standard or interpretation that is not yet effective for the current accounting period.

#### HKFRS 16, Leases

The Group has applied HKFRS 16 for the first time in the current year. HKFRS 16 superseded HKAS 17 Leases ("HKAS 17"), and the related interpretations.

#### Definition of a lease

The Group has elected the practical expedient to apply HKFRS 16 to contracts that were previously identified as leases applying HKAS 17 and HK(IFRIC)-Int 4 Determining whether an Arrangement contains a Lease and not apply this standard to contracts that were not previously identified as containing a lease. Therefore, the Group has not reassessed contracts which already existed prior to the date of initial application.

For contracts entered into or modified on or after April 1, 2019, the Group applies the definition of a lease in accordance with the requirements set out in HKFRS 16 in assessing whether a contract contains a lease.

#### NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

#### 2. PRINCIPAL ACCOUNTING POLICIES (CONT'D)

b. Changes in Accounting Policies and Disclosures (Cont'd)

HKFRS 16, Leases (Cont'd)

#### As a lessee

The Group has applied HKFRS 16 retrospectively with the cumulative effect recognised at the date of initial application, April 1, 2019.

As at 1 April 2019, the Group recognised additional lease liabilities and right-of-use assets at amounts equal to the related lease liabilities [adjusted by any prepaid or accrued lease payments] by applying HKFRS 16.C8(b)(ii) transition. Any difference at the date of initial application is recognised in the opening retained profits and comparative information has not been restated.

When applying the modified retrospective approach under HKFRS 16 at transition, the Group applied the following practical expedients to leases previously classified as operating leases under HKAS 17, on lease-by-lease basis, to the extent relevant to the respective lease contracts:

- i. relied on the assessment of whether leases are onerous by applying HKAS 37 Provisions, Contingent Liabilities and Contingent Assets as an alternative of impairment review;
- ii. elected not to recognise right-of-use assets and lease liabilities for leases with lease term ends within 12 months of the date of initial application;
- iii. excluded initial direct costs from measuring the right-of-use assets at the date of initial application;
- iv. applied a single discount rate to a portfolio of leases with a similar remaining terms for similar class of underlying assets in similar economic environment. Specifically, discount rate for certain leases of BD office was determined on a portfolio basis; and
- v. used hindsight based on facts and circumstances as at date of initial application in determining the lease term for the Group's leases with extension and termination options

Note: For the purpose of reporting cash flows from operating activities under indirect method for the year ended March 31, 2020, movements in working capital have been computed based on opening consolidated statement of financial position as at April 1, 2019 as disclosed above.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

### 2. PRINCIPAL ACCOUNTING POLICIES (CONT'D)

# c. Basis of Consolidation

The consolidated financial statements include the financial statements of the Company and its subsidiaries made up to March 31, 2020. Subsidiary is an entity over which the Group has control. Control is the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the Group has control.

Subsidiary is consolidated from the date on which control is transferred to the Group. They are de-consolidated from the date the control ceases.

The gain or loss on disposal of a subsidiary that results in a loss of control represents the difference between (i) the fair value of the consideration of the sale plus the fair value of any investment retained in that subsidiary and (ii) the Company's share of the net assets of that subsidiary plus any remaining goodwill relating to that subsidiary and any related accumulated foreign currency translation reserve.

Intragroup transactions, balance and unrealised profits are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of subsidiary have been changes where necessary to ensure consistency with the policies adopted by the Group.

Non-controlling interests represent the equity in a subsidiary not attributable directly or indirectly to the Company, and in respect of which the Group has not agreed any additional terms with the holders of those interests which would result in the Group as a whole having a contractual obligation in respect of those interests that meets the definition of a financial liability. For each business combination, the Group can elect to measure any non-controlling interests either at fair value or at their proportionate share of the subsidiary's net identifiable assets.

Non-controlling interests are presented in the consolidated statement of financial position within equity, separately from equity attributable to the shareholders of the Company. Non-controlling interests in the results of the Group are presented on the face of the consolidated statement of profit or loss and other comprehensive income as an allocation of the total profit or loss and total comprehensive income for the year between non-controlling interests and the shareholders of the Company.

Changes in the Group's ownership interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions, whereby adjustments are made to the amounts of the controlling and non-controlling interests within consolidated equity to reflect the changes in their relative interests in the subsidiary. Any difference between the amount by which the non-controlling interest are adjusted and the fair value of the consideration paid or received recognised directly in equity and attributed to the owners of the Company.

In the Company's statements of financial position, the investment in subsidiaries is stated at cost less allowance for impairment losses. The results of subsidiaries are accounted for by the Company on the basis of dividends received and receivable.

#### NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

#### 2. PRINCIPAL ACCOUNTING POLICIES (CONT'D)

# d. Property, Plant and Equipment

An item of property, plant and equipment is stated at cost or valuation less accumulated depreciation and any impairment losses. The cost of an item of plant and equipment comprises its purchase price and any directly attributable costs of bringing the asset to its working condition and location for its intended use. Expenditure incurred after items of property, plant and equipment have been put into operation, such as repairs and maintenance, is normally charged to the statement of profit or loss and other comprehensive income in the period in which it is incurred. In situations where the recognition criteria are satisfied, the expenditure for a major inspection is capitalised in the carrying amount of the asset as a replacement. Where significant parts of plant and equipment are required to be replaced at intervals, the Group recognises such parts as individual assets with specific useful lives and depreciates them accordingly.

Depreciation is calculated on a straight-line basis to write off the cost of each item of property, plant and equipment to its residual value over its estimated useful life, as follows:

Leasehold land over the lease term

Land use rights 30 years

Leasehold buildings over the useful life or lease term, whichever is shorter Buildings over the useful life or lease term, whichever is shorter

Infrastructures 5 - 25 years

Leasehold improvement3 yearsMachineries5 - 10 yearsFurniture and fixtures3 - 5 yearsMotor vehicles5 - 8 yearsTools and equipment3 - 5 yearsOffice equipment3 - 4 years

Computer equipment 3 - 4 years
Computer software 5 years

Land titles is stated at cost and not depreciated. Land titles represent building usage rights of Taman Pasadenia Apartment at Jakarta ("Hak Milik atas Satuan Rumah Susun") for a maximum period of 20 years and could be extended.

An item of plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit or loss and other comprehensive income when the asset is derecognised.

The residual values, useful lives and methods of depreciation of plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

#### NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

#### 2. PRINCIPAL ACCOUNTING POLICIES (CONT'D)

#### e. Goodwill

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred, the amount recognised for non-controlling interests and any fair value of the Group's previously held equity interests in the acquiree over the identifiable net assets acquired and liabilities assumed. If the sum of this consideration and other items is lower than the fair value of the net assets acquired, the difference is, after reassessment, recognised in profit or loss as a gain on bargain purchase.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. Goodwill is tested for impairment annually or more frequently if events or changes in circumstances indicate that the carrying value may be impaired. The Group performs its annual impairment test of goodwill as at the end of the reporting period.

For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units, or groups of cash-generating units, that are expected to benefit from the synergies of the combination, irrespective of whether other assets or liabilities of the Group are assigned to those units or groups of units.

Impairment is determined by assessing the recoverable amount of the cash-generating unit (group of cash generating units) to which the goodwill relates. Where the recoverable amount of the cash-generating unit (group of cash-generating units) is less than the carrying amount, an impairment loss is recognised. An impairment loss recognised for goodwill is not reversed in a subsequent period.

Where goodwill has been allocated to a cash-generating unit (or group of cash-generating units) and part of the operation within that unit is disposed of, the goodwill associated with the operation disposed of is included in the carrying amount of the operation when determining the gain or loss on the disposal. Goodwill disposed of in these circumstances is measured based on the relative value of the operation disposed of and the portion of the cash-generating unit retained.

#### f. Inventories

Inventories are assets which are held for sale in the ordinary course of business.

Inventories are carried at the lower of cost and net realisable value, after making due allowance for any obsolete or slow moving items.

Net realisable value is based on estimated selling prices less any further costs expected to be incurred. When inventories are sold, the carrying amount of those inventories is recognised as an expense in the period in which the related revenue is recognised.

The amount of any write-down of inventories to net realisable value and all losses of inventories are recognised as an expense in the period the write-down or loss occurs. The amount of any reversal of any write-down of inventories is recognised as a reduction in the amount of inventories recognised as an expense in the period in which the reversal occurs.

#### NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

#### 2. PRINCIPAL ACCOUNTING POLICIES (CONT'D)

#### g. Impairment of Non-Financial Assets

Where an indication of impairment exists, or when annual impairment testing for an asset is required (other than inventories, financial assets and non-current assets), the asset's recoverable amount is estimated. An asset's recoverable amount is the higher of the asset's or cash-generating unit's value in use and its fair value less costs of disposal, and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets, in which case the recoverable amount is determined for the cash-generating unit to which the asset belongs.

An impairment loss is recognised only if the carrying amount of an asset exceeds its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. An impairment loss is charged to the statement of profit or loss and other comprehensive income in the period in which it arises in those expense categories consistent with the function of the impaired asset.

An assessment is made at the end of each reporting period as to whether there is an indication that previously recognised impairment losses may no longer exist or may have decreased. If such an indication exists, the recoverable amount is estimated. A previously recognised impairment loss of an asset other than goodwill is reversed only if there has been a change in the estimates used to determine the recoverable amount of that asset, but not to an amount higher than the carrying amount that would have been determined (net of any depreciation/amortisation) had no impairment loss been recognised for the asset in prior years. A reversal of such an impairment loss is credited to the statement of profit or loss and other comprehensive income in the period in which it arises, (only if there are revalued assets in the consolidated financial statements) unless the asset is carried at a revalued amount, in which case the reversal of the impairment loss is accounted for in accordance with the relevant accounting policy for that revalued asset.

#### h. Financial Instruments

#### (i) <u>Financial assets</u>

Financial assets of the Group are classified, at initial recognition, as subsequently measured at amortised cost or fair value through other comprehensive income.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient of not adjusting the effect of a significant financing component, the Group initially measures a financial asset at its fair value plus in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient are measured at the transaction price determined under HKFRS 15 in accordance with the policies set out for "Revenue recognition" below.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

### 2. PRINCIPAL ACCOUNTING POLICIES (CONT'D)

#### h. Financial Instruments

### (i) Financial assets (Cont'd)

In order for a financial asset to be classified and measured at amortised cost or fair value through other comprehensive income, it needs to give rise to cash flows that are solely payments of principal and interest ("SPPI") on the principal amount outstanding. Financial assets with cash flows that are not SPPI are classified and measured at fair value through profit or loss, irrespective of the business model.

The Group's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both. Financial assets classified and measured at amortised cost are held within a business model with the objective to hold financial assets in order to collect contractual cash flows, while financial assets classified and measured at fair value through other comprehensive income are held within a business model with the objective of both holding to collect contractual cash flows and selling. Financial assets which are not held within the aforementioned business models are classified and measured at fair value through profit or loss.

All regular way purchases and sales of financial assets are recognised on the trade date, that is, the date that the Group commits to purchase or sell the asset. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the period generally established by regulation or convention in the marketplace.

Subsequent measurement

The subsequent measurement of financial assets depends on their classification as follows:

Financial assets at amortised cost (debt instruments)

Financial assets at amortised cost are subsequently measured using the effective interest method and are subject to impairment. Gains and losses are recognised in the statement of profit or loss and other comprehensive income when the asset is derecognised, modified or impaired.

#### NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

#### PRINCIPAL ACCOUNTING POLICIES (CONT'D)

#### h. Financial Instruments

#### (i) Financial assets (Cont'd)

Financial assets designated at fair value through other comprehensive income (equity investments)

Upon initial recognition, the Group can elect to classify irrevocably its equity investments as equity investments designated at fair value through other comprehensive income when they meet the definition of equity under HKAS 32 Financial Instruments: Presentation and are not held for trading. The classification is determined on an instrument-by-instrument basis.

Gains and losses on these financial assets are never recycled to the statement of profit or loss and other comprehensive income. Dividends are recognised as other income in the statement of profit or loss and other comprehensive income when the right of payment has been established, it is probable that the economic benefits associated with the dividend will flow to the Group and the amount of the dividend can be measured reliably, except when the Group benefits from such proceeds as a recovery of part of the cost of the financial asset, in which case, such gains are recorded in other comprehensive income. Equity investments designated at fair value through other comprehensive income are not subject to impairment assessment.

#### Derecognition of financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e., removed from the Group's consolidated statement of financial position) when:

- the rights to receive cash flows from the asset have expired; or
- the Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass-through" arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass- through arrangement, it evaluates if, and to what extent, it has retained the risk and rewards of ownership of the asset. When it has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of the Group's continuing involvement. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

#### 2. PRINCIPAL ACCOUNTING POLICIES (CONT'D)

#### h. Financial Instruments (Cont'd)

# (ii) Impairment loss on financial assets

The Group recognises loss allowances for expected credit loss ("ECLs") on trade receivables and financial assets measured at amortised cost. The ECLs are measured on either of the following bases:

(1) 12 months ECLs: these are the ECLs that result from possible default events within the 12 months after the reporting date; and

(2) lifetime ECLs: these are ECLs that result from all possible default events over the expected life of a financial instrument. The maximum period considered when estimating ECLs is the maximum contractual period over which the Group is exposed to credit

ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the Group expects to receive. The shortfall is then discounted at an approximation to the assets' original effective interest rate.

The Group has elected to measure loss allowances for trade receivables using HKFRS 9 simplified approach and has calculated ECLs based on lifetime ECLs. The Group has established a provision matrix that is based on the Group's historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

For other debt financial assets, the ECLs are based on the 12 months ECLs. However, when there has been a significant increase in credit risk since origination, the allowance will be based on the lifetime ECLs.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information analysis, based on the Group's historical experience and informed credit assessment and including forward-looking information.

Interest income on credit-impaired financial assets is calculated based on the amortised cost (i.e. the gross carrying amount less loss allowance) of the financial asset. For non credit-impaired financial assets interest income is calculated based on the gross carrying amount.

#### NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

# 2. PRINCIPAL ACCOUNTING POLICIES (CONT'D)

#### h. Financial Instruments (Cont'd)

#### (iii) Financial liabilities

Initial recognition and measurement

Financial liabilities of the Group are loans and borrowings. All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

Subsequent measurement

Financial liabilities at amortised cost (loans and borrowings)

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost, using the effective interest rate method unless the effect of discounting would be immaterial, in which case they are stated at cost. Gains and losses are recognised in the statement of profit or loss and other comprehensive income when the liabilities are derecognised as well as through the effective interest rate amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the effective interest rate. The effective interest rate amortisation is included in finance costs in the statement of profit or loss and other comprehensive income.

Effective interest method

The effective interest method is a method of calculating the amortised cost of a financial asset or financial liability and of allocating interest income or interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts or payments through the expected life of the financial asset or liability, or where appropriate, a shorter period.

Derecognition of financial liabilities

A financial liability is derecognised when the obligation under the liability is discharged or cancelled, or expires.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and a recognition of a new liability, and the difference between the respective carrying amounts is recognised in the statement of profit or loss and other comprehensive income.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

#### PRINCIPAL ACCOUNTING POLICIES (CONT'D)

#### i. Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the statement of financial position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

### j. Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and on hand and short-term, highly liquid investments that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value. Bank overdrafts that are repayable on demand and form an integral part of the company's cash management are also included as a component of cash and cash equivalents for the purpose of the cash flow statement.

#### k. Leases

#### (A) Upon application of IFRS 16 in accordance with transitions in note 2b

#### Definition of a lease

Lease is a contract contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

For contracts entered into or modified or arising from business combinations on or after the date of initial application, the Group assesses whether a contract is or contains a lease based on the definition under IFRS 16 at inception, modification date or acquisition date, as appropriate. Such contract will not be reassessed unless the terms and conditions of the contract are subsequently changed.

#### The Group as lessee

# Allocation of consideration to components of a contract

For a contract that contains a lease component and one or more additional lease or non-lease components, the Group allocates the consideration in the contract to each lease component on the basis of the relative stand- alone price of the lease component and the aggregate stand-alone price of the non-lease components.

The Group also applies practical expedient not to separate non-lease components from lease component, and instead account for the lease component and any associated non lease components as a single lease component.

#### Short-term leases and leases of low-value assets

The Group applies the short-term lease recognition exemption to leases of food centres that have a lease term of 12 months or less from the commencement date and do not contain a purchase option. It also applies the recognition exemption for lease of low-value assets. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis or another systematic basis over the lease term.

#### NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

### 2. PRINCIPAL ACCOUNTING POLICIES (CONT'D)

#### k. Leases (Cont'd)

#### (A) Upon application of IFRS 16 in accordance with transitions in note 2b (cont'd)

#### The Group as lessee (cont'd)

#### Right-of-use assets

The cost of right-of-use asset includes:

- the amount of the initial measurement of the lease liability;
- any lease payments made at or before the commencement date, less any lease incentives received;
- any initial direct costs incurred by the Group; and
- an estimate of costs to be incurred by the Group in dismantling and removing the underlying assets, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease, unless those costs are incurred to produce inventories.

Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities.

Right-of-use assets in which the Group is reasonably certain to obtain ownership of the underlying leased assets at the end of the lease term are depreciated from commencement date to the end of the useful life. Otherwise, right-of-use assets are depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term.

The Group presents right-of-use assets as a separate line item on the consolidated statement of financial position.

#### Refundable rental deposits

Refundable rental deposits paid are accounted under HKFRS 9 Financial Instruments ("HKFRS 9") and initially measured at fair value. Adjustments to fair value at initial recognition are considered as additional lease payments and included in the cost of right-of-use assets.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

### 2. PRINCIPAL ACCOUNTING POLICIES (CONT'D)

#### k. Leases (Cont'd)

# (A) Upon application of IFRS 16 in accordance with transitions in note 2b (cont'd)

## The Group as Iessee (cont'd)

#### Lease liabilities

At the commencement date of a lease, the Group recognises and measures the lease liability at the present value of lease payments that are unpaid at that date. In calculating the present value of lease payments, the Group uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable.

Lease payments included in the measurement of the lease liability comprise:

- fixed lease payments (including in-substance fixed payments), less any lease incentives receivable;
- variable lease payments that depend on an index or rate, initially measured using the index or rate at the commencement date;
- the amount expected to be payable by the lessee under residual value guarantees;
- the exercise price of purchase options, if the lessee is reasonably certain to exercise the options; and
- payments of penalties for terminating the lease, if the lease term reflects the exercise of an option to terminate the lease.

After the commencement date, lease liabilities are adjusted by interest accretion and lease payments.

The Group remeasures lease liabilities (and makes a corresponding adjustment to the related right-of-use assets) whenever:

- the lease term has changed or there is a change in the assessment of exercise of
  a purchase option, in which case the related lease liability is remeasured by
  discounting the revised lease payments using a revised discount rate at the date
  of reassessment.
- the lease payments change due to changes in market rental rates following a market rent review/expected payment under a guaranteed residual value, in which cases the related lease liability is remeasured by discounting the revised lease payments using the initial discount rate.

The lease liabilities are presented as a separate line in the consolidated statement of financial position.

### 2. PRINCIPAL ACCOUNTING POLICIES (CONT'D)

#### k. Leases (Cont'd)

#### (A) Upon application of IFRS 16 in accordance with transitions in note 2b (cont'd)

#### The Group as lessee (cont'd)

#### Lease modifications

The Group accounts for a lease modification as a separate lease if:

- the modification increases the scope of the lease by adding the right to use one or more underlying assets; and
- the consideration for the leases increases by an amount commensurate with the stand-alone price for the increase in scope and any appropriate adjustments to that stand-alone price to reflect the circumstances of the particular contract.

For a lease modification that is not accounted for as a separate lease, the Group remeasures the lease liability based on the lease term of the modified lease by discounting the revised lease payments using a revised discount rate at the effective date of the modification.

The Group accounts for the remeasurement of lease liabilities by making corresponding adjustments to the relevant right-ofuse asset. When the modified contract contains a lease component and one or more additional lease or non-lease components, the Group allocates the consideration in the modified contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

# (B) Prior to January 1, 2019

Leases are classified as finance lease whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

#### NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

### 2. PRINCIPAL ACCOUNTING POLICIES (CONT'D)

#### k. Leases (Cont'd)

# (B) Prior to January 1, 2019 (Cont'd)

#### The Group as lessee

Operating lease payments are recognised as an expense on a straight-line basis over the lease term, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed. Contingent rentals arising under operating leases are recognised as an expense in the period in which they are incurred.

In the event that lease incentives are received to enter into operating leases, such incentives are recognised as a liability. The aggregate benefit of incentives is recognised as a reduction of rental expense on a straight-line basis, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed.

Lease payments are apportioned between finance expenses and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance expenses are recognised immediately in profit or loss, unless they are directly attributable to qualifying assets, in which case they are capitalised in accordance with the Group's general policy on borrowing costs (see the accounting policy below). Contingent rentals are recognised as expenses in the periods in which they are incurred.

#### 1. Provisions and contingent liabilities

A provision is recognised when a present obligation (legal or constructive) has arisen as a result of a past event and it is probable that a future outflow of resources will be required to settle the obligation, provided that a reliable estimate can be made of the amount of the obligation.

When the effect of discounting is material, the amount recognised for a provision is the present value at the end of the reporting period of the future expenditures expected to be required to settle the obligation. The increase in the discounted present value amount arising from the passage of time is included in finance costs in the statement of profit or loss and other comprehensive income.

The Group provides for warranties in relation to the sale of certain industrial products and the provision of construction services for general repairs of defects occurring during the warranty period. Provisions for these assurance-type warranties granted by the Group are recognised based on sales volume and past experience of the level of repairs and returns, discounted to their present values as appropriate.

A contingent liability recognised in a business combination is initially measured at its fair value. Subsequently, it is measured at the higher of (i) the amount that would be recognised in accordance with the general policy for provisions above; and (ii) the amount initially recognised less, when appropriate, the amount of income recognised in accordance with the policy for revenue recognition.

#### NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

#### 2. PRINCIPAL ACCOUNTING POLICIES (CONT'D)

#### m. Revenue Recognition

Revenue from contracts with customers is recognised when control of goods or services is transferred to the customers at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services, excluding those amounts collected on behalf of third parties. Revenue excludes value added tax or other sales taxes and is after deduction of any trade discounts.

Depending on the terms of the contract and the laws that apply to the contract, control of the goods or service may be transferred over time or at a point in time. Control of the goods or service is transferred over time if the Group's performance:

- provides all of the benefits received and consumed simultaneously by the customer;
- creates or enhances an asset that the customer controls as the Group performs; or
- does not create an asset with an alternative use to the Group and the Group has an
  enforceable right to payment for performance completed to date.

If control of the goods or services transfers over time, revenue is recognised over the period of the contract by reference to the progress towards complete satisfaction of that performance obligation. Otherwise, revenue is recognised at a point in time when the customer obtains control of the goods or service. Otherwise, revenue is recognised at a point in time when the customer obtains control of the goods or service.

When the contract contains a financing component which provides the customer a significant benefit of financing the transfer of goods or services to the customer for more than one year, revenue is measured at the present value of the amounts receivable, discounted using the discount rate that would be reflected in a separate financing transaction between the Group and the customer at contract inception. Where the contract contains a financing component which provides a significant financing benefit to the Group, revenue recognised under that contract includes the interest expense accreted on the contract liability under the effective interest method. For contracts where the period between the payment and the transfer of the promised goods or services is one year or less, the transaction price is not adjusted for the effects of a significant financing component, using the practical expedient in HKFRS 15.

#### (i) Sales of goods

Revenue from sales of goods is recognised when the customers have obtained control of the goods, being when the goods are delivered to the respective customers' specific locations and have been accepted by the customers, and the corresponding trade receivable are recognised as this represents the point in time at which the right to consideration becomes unconditional, as only the passage of time is required before payment is due. There is generally only one performance obligation.

#### NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

#### 2. PRINCIPAL ACCOUNTING POLICIES (CONT'D)

#### m. Revenue Recognition (Cont'd)

#### (ii) Service income

Service income is recognised when the services are rendered as the criteria of recognizing revenue over time is not met.

Further details of the Group's other income recognition policies are as follows:

- Interest income from bank deposit is accrued on a time proportion basis on the principal outstanding and at the rate applicable.
- Claims and recovery is recognised when the Group is entitled to the income.
- Other income is recognised on a receipt basis.
- Sampling income is recognised when samples are delivered to buyers.

#### n. Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from net profit as reported in the statement of profit or loss and other comprehensive income because it excludes items of income and expense that are taxable or deductible in other years, and it further excludes items that are never taxable and deductible.

Deferred tax is the tax expected to be payable or recoverable on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit, and is accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognised for all taxable temporary differences, and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from the initial recognition of specific assets and liabilities in a transaction that affects neither the tax profit nor the accounting profit.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset realised. No deferred tax asset has been recognised on the unused tax losses due to the infeasibility to predict the availability of future taxable profit for offsetting such deductible timing differences.

Deferred tax, if material, is charged or credited in the statement of profit or loss and other comprehensive income.

#### NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

#### 2. PRINCIPAL ACCOUNTING POLICIES (CONT'D)

#### n. Taxation (Cont'd)

For the purposes of measuring deferred tax for leasing transactions in which the Group recognized the right-of use assets and the related leased liabilities, the Group first determines whether the tax deductions are attributable to the right-of-use or the lease liabilities.

For the leasing transactions in which the tax deductions are attributable to the lease liabilities, the Group applies HKAS 12 Income Taxes requirements to right-of use assets and lease liabilities separately. Temporary differences relating to right-of-use assets and lease liabilities are not recognized at initial recognized and over the lease terms due to application of the initial recognition exemption.

## o. Employee Benefits Obligation

Policy for the Group's operation in the Republic of Indonesia

The Group determines its post-employment benefits obligation under the Labor Law of the Republic of Indonesia No. 13/2003. The cost of providing post-employment benefits is determined using "Projected Unit Credit" method. Actuarial gains or losses are recognized as income or expense when the net cumulative unrecognized actuarial gains and losses at the end of the previous reporting year exceeded the higher of 10% of the defined benefit obligation and 10% of the fair value of plan assets at that date. These gains or losses are recognised on a straight-line basis method over the expected average remaining working lives of the employees. Past service cost arising from the introduction of a defined benefit plan or changes in the benefits obligation of an existing plan are required to be amortized over the period until the benefits concerned become vested.

Policy for the Group's operation in the Socialist Republic of Vietnam

The severance allowance for employees is accrued at the end of each reporting period for all employees having worked at the Group for full 12 months and above. Working time serving as the basis for calculating severance allowance shall be the total actual working time subtracting the time when the employees have made unemployment insurance contributions as prescribed by law, and the working time when severance allowance has been paid to the employees. The allowance made for each year of service equals to a half of an average monthly salary under the Vietnamese Labour Code, Social Insurance Code and relevant guiding documents. The average monthly salary used for calculation of severance allowance shall be adjusted to be the average of the 6 consecutive months nearest to the date of the financial statements at the end of each reporting period. The increase or decrease in the accrued amount shall be recorded in the statement of profit or loss or other comprehensive income.

### NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

### 2. PRINCIPAL ACCOUNTING POLICIES (CONT'D)

### o. Employee Benefits Obligation (Cont'd)

Policy for the Group's operation in the Hong Kong Special Administrative Region of the People's Republic of China

The Group participates in Mandatory Provident Fund Scheme ("MPF Scheme") for its employees in Hong Kong. The MPF Scheme is registered with the Mandatory Provident Fund Scheme Authority under the Mandatory Provident Fund Schemes Ordinance. The assets of the MPF Scheme are held separately from those of the Group in funds under the control of an independent trustee. Pursuant to the rules of the MPF Scheme, each of the employer and employees are required to make contributions to the scheme at rates specified in the rules.

The MPF Scheme is a defined contribution plan and the Group is only obliged to make the required contributions under the scheme. No forfeited contribution is available to reduce the contribution payable in the future years.

The retirement benefit cost arising from the MPF Scheme charged to the consolidated statement of profit or loss and other comprehensive income represent contribution payable to the funds by the Group in accordance with the rules of the MPF Scheme.

### p. Employment Ordinance Long Service Payments

The Group's employees in Hong Kong who have completed the required number of years of service to the Group are eligible for long service payments under the Hong Kong Employment Ordinance in the event of the termination of their employment. The Group is liable to make such payments in the event that such a termination of employment meets the circumstances specified in the Employment Ordinance.

No provision is provided in the financial statements in respect of the probable future long service payments expected to be made on the grounds that the provision for the current and prior year are negligible in comparison to the Group's overall financial position.

### q. Borrowing Costs

Interest and other borrowing costs incurred in connection with the borrowing of funds are recognised as expenses in the period in which they are incurred.

### NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

### PRINCIPAL ACCOUNTING POLICIES (CONT'D)

### Translation of Foreign Currency

### (i) Functional and presentation currency

Items included in the consolidated financial statements of the Group are measured using the currency of the primary economic environment in which the entity operates ("the functional currency"). The consolidated financial statements are presented in United States Dollars ("US\$"), which is the Group's functional and presentation currency.

### (ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the consolidated statement of profit or loss and other comprehensive income.

### (iii) Group companies

The results and financial position of all the group entities (none of which has the currency of a hyperinflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- assets and liabilities for each statement of financial position presented are translated at the exchange rate adopted by the directors which is closely commensurate with the prevailing year-end exchange rates at the date of that statement of financial position;
- (ii) income and expenses for each income statement are translated at the exchange rate adopted by the directors which is closely commensurate with the prevailing average exchange rates (unless this average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the dates of the transactions); and
- (iii) all resulting exchange differences are recognised in other comprehensive income.

On consolidation, exchange differences arising from the translation of the net investment in foreign entities, and of borrowings and other currency instruments designated as hedges of such investments, are taken to other comprehensive income. When a foreign operation is partially disposed of or sold, such exchange differences are recognised in the consolidated statement of profit or loss and other comprehensive income as part of the gain or loss on sale.

### NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

### 2. PRINCIPAL ACCOUNTING POLICIES (CONT'D)

### s. Related Parties

A related party is a person or entity that is related to the Group.

- (A) A person or a close member of that person's family is related to the Group if that person:
  - (i) has control or joint control over the Group;
  - (ii) has significant influence over the Group; or
  - (iii) is a member of the key management personnel of the Group or a parent of the Group.
- (B) An entity is related to the Group if any of the following conditions applies:
  - (i) The entity and the Group are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others).
  - (ii) One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member).
  - (iii) Both entities are joint ventures of the same third party.
  - (iv) One entity is a joint venture of a third entity and the other entity is an associate of the third entity.
  - (v) The entity is a post-employment benefit plan for the benefit of employees of either the Group or an entity related to the Group. If the Group is itself such a plan, the sponsoring employers are also related to the Group.
  - (vi) The entity is controlled or jointly controlled by a person identified in (A).
  - (vii) A person identified in (A)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity).
  - (viii) The entity, or any member of a group of which it is a part, provides key management personnel services to the Group or to the group's parent.

Close members of the family of a person are those family members who may be expected to influence, or be influenced by, that person in their dealings with the entity and include:

- (i) that person's children and spouse or domestic partner;
- (ii) children of that person's spouse or domestic partner; and
- (iii) dependants of that person or that person's spouse or domestic partner.

### NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

### 3. CAPITAL MANAGEMENT

The Group's objectives when managing capital are:

- (i) To safeguard the Group's ability to continue as a going concern, so that it continues to provide returns for shareholders and benefits for other stakeholders;
- (ii) To support the Group's stability and growth; and
- (iii) To provide capital for the purpose of strengthening the Group's risk management capability.

The Group manages its capital structure and makes adjustments to it in light of changes in economic conditions. The Group actively and regularly reviews and manages its capital structure to ensure optimal capital structure and shareholder returns, taking into consideration the future capital requirements of the Group. In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares, or sell assets to reduce debt. No changes in the objectives, policies or processes for managing capital were made during the years ended March 31, 2020 and March 31, 2019.

### 4. <u>CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY</u>

The preparation of the Group's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and their accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amounts of the assets or liabilities affected in the future.

### Judgements

In the process of applying the Group's accounting policies, management has made the following judgements, apart from those involving estimations, which have the most significant effect on the amounts recognised in the financial statements:

### Revenue from contracts with customers

The Group assesses its revenue arrangements against specific criteria, i.e. whether it has exposure to the significant risks and rewards associated with the sale of goods & rendering of services, in order to determine if it is acting as a principal or as an agent. The Group has concluded that it is operating on a principal to principal basis in all its revenue arrangements.

The Group applies judgement to determine whether each product or service promised to a customer are capable of being distinct, and are distinct in the context of contract, if not the promised services are combined and accounted as a single performance obligation.

For performance obligation where control is transferred over the time, revenues are recognised by measuring progress towards completion of the performance obligation. The selection of the method to measure progress towards completion requires judgement and is based on the nature of the promised service to be rendered.

### NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

### 4. <u>CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (CONT'D)</u>

Provision for expected credit loss on trade receivables

The Group uses a provision matrix to calculate ECLs for trade receivables. The provision matrix calculates ECLs for trade receivables. The provision rates are based on days past due for groupings of various customer segments that have similar loss patterns.

Depreciation on plant and equipment

Depreciation on the Group's plant and equipment is calculated using the straight-line method to allocate cost up to residual values over the estimated useful lives of the assets. Management reviews the useful lives and residual values periodically to ensure that the method and rate of depreciation are consistent with the expected pattern of realisation of economic benefits rates of depreciation are consistent with the expected pattern of realization of economic benefits from plant and equipment. The accounting estimate of the useful lives of plant and equipment is based on historical experience, taking into account anticipated technological changes.

Net Carrying Amount	
At 31/3/2020	123,047

### NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

### 14. RIGHT-OF-USE ASSETS (CONT'D)

The lease terms of the offices range from 2 to 4 years. Depreciation is provided to write off the cost of items of right-of-use assets over their expected useful lives using straight line method. When there is no reasonable certainty that ownership will be obtained by the end of the lease term, the assets are depreciated over the lease term.

The Group does not have the option to purchase the right-of-use assets for a nominal amount at the end of the lease terms.

Lease liabilities of approximately HK\$125,614 are recognised with related right-of-use assets of approximately HK\$123,047 as at March 31, 2020. The lease agreements do not impose any covenants other than the security interests in the leased assets that are held by the lessor. Lease assets may not be used as security for borrowing purposes.

### NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

### 21. LEASE LIABILITIES

The following table shows the remaining contractual maturities of the Group's lease liabilities at the end of the current and previous reporting periods and at the date of transition to HKFRS 16:

	202	<u>.0</u>
	Present value of the minimum lease payments	Total minimum lease payments
	US\$	US\$
Within 1 year	94,457	96,391
In the second to fifth year inclusive	31,157	31,857
	125,614	128,248
Less: total future interest expenses		(2,634)
		125,614

### 22. OBLIGATION UNDER FINANCE LEASE

The carrying amount of the obligation under finance lease at the end of reporting period is analysed as follows:

	<u>2020</u>	<u>2019</u>
	US\$	US\$
Amount repayable within one year Amount repayable in the 2nd year	4,009 3,039	23,007 3,835
	7,048	26,842

### NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

### 23. SECURED BANK BORROWINGS

The carrying amount of the secured bank borrowings at the end of reporting period is analysed as follows:

•	<u>2020</u>	2019
Amount repayable within one year	US\$	US\$
Discounted bills and trust receipt loans Term loans	9,812,350 4,253,478	9,580,836 1,167,596
·	14,065,828	10,748,432
Amount not repayable within one year but contain a repayment on demand clause  Term loans		
Amount repayable in the 2nd year	1,549,701	1,202,647
Amount repayable in the 3rd to 5th years	1,530,884	2,697,459
Amount repayable in the 5th year	1,808,744	2,121,097
	4,889,329	6,021,203
	18,955,157	16,769,635

- (a) The amounts due are based on the scheduled repayment dates set out in the loan agreements and ignore the effect of any repayment on demand clause.
- (b) The bank borrowing facilities are secured by part of the Group's machineries, inventories and trade receivables, corporate guarantee of the ultimate holding company and a fellow subsidiary and directors' personal guarantee.

### 24. UNSECURED BANK BORROWING

The unsecured bank borrowing is interest-bearing and repayable within one year.

### 25. SHARE APPLICATION MONEY

Share application money represents the fund advanced by a fellow subsidiary. The amount is unsecured, interest-free and will convert into share capital upon the completion of share allotment.

### NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

### 26. LOAN FROM A NON-CONTROLLING INTEREST/AN EX-DIRECTOR OF A SUBSIDIARY/A DIRECTOR OF A SUBSIDIARY

As at March 31, 2020 and 2019, the loan from a non-controlling interest is unsecured, interest free and not expected to be fully repayable within the coming twelve months from the end of the reporting period.

As at March 31, 2020, loan from a director was reclassified as loan from an ex-director which is unsecured, interest free and expected to be fully repayable within the coming twelve months from the end of the reporting period.

### 30. FINANCE INSTRUMENTS

### Risk management

The Group is exposed to financial risks through its use of financial instruments in its ordinary course of operations and in its investment activities. The financial risks include credit risk, foreign currency risk, liquidity risk and interest rate risk.

Policies for managing these risks are set by the Group's board of directors. The overall objectives in managing financial risks focus on securing the Group's short to medium term cash flows by minimising its exposure to financial markets. Long term financial investments are managed to generate lasting returns with acceptable risk levels.

It is not the Group's policy to actively engage in the trading of financial instruments for speculative purposes.

### NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

### 30. FINANCE INSTRUMENTS (CONT'D)

### (b) Credit risk

Credit risk refers to the risk that the counterparty to a financial instrument would fail to discharge its obligation under the terms of the financial instrument and cause a financial loss to the Group. The Group's exposure to credit risk mainly arises from granting credit to customers and other counterparties in the ordinary course of its operations.

### Trade receivables

Individual credit evaluations are performed on all customers requiring credit over a certain amount. These evaluations focus on the customer's past history of making payments when due and current ability to pay, and take into account information specific to the customer as well as pertaining to the economic environment in which the customer operates. Trade receivables are usually due within 30-90 days from the date of billing. Debtors with balances that are past due are usually requested to settle all outstanding balances before any further credit is granted. Normally, the Group does not obtain collateral from customers. Trade receivables at the reporting date mainly comprise amounts receivable from sales of goods. No interest is charged on the trade receivables.

The Group measures loss allowances for trade receivables at an amount equal to lifetime ECLs, which is calculated using a provision matrix. As the Group's historical credit loss experience does not indicate significantly different loss patterns for different customer segments, the loss allowance based on past due status is not further distinguished between the Group's different customer bases.

The directors of the Group are on the opinion that the expected credit loss rate is close to zero as these trade receivables have no recent history of default.

Expected loss rates are based on actual loss experience over the past one year. These rates are adjusted to reflect differences between economic conditions during the period over which the historic data has been collected, current conditions and the Group's view of economic conditions over the expected lives of the receivables.

After performing the individual credit evaluations on all customers, no provision for impairment was made on trade receivables during the year.

### Other financial assets at amortised cost

As at March 31, 2020, in addition to the cash and bank balances which are considered to have low credit risk, other financial assets at amortised cost of the Group include other receivables and deposits. No provision was made against the gross amount of other receivables, deposits and cash and bank balances because the directors of the Group considered the impact of the ECLs of these financial assets to be insignificant based on past credit history and the nature of these financial assets.

### (c) Foreign currency risk

The Group operates internationally and is primarily exposed to foreign exchange risk arising from currency exposures of the United States dollars, with respect to the Hong Kong dollar. The Group will monitor its foreign currency exposure closely and will consider hedging significant foreign currency exposure should the need arise.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

### 30. FINANCE INSTRUMENTS (CONT'D)

(c) Foreign currency risk

(i) Exposure to currency risk

The following table details the Group's exposure at the end of reporting period to currency risk arising from forecast transactions or recognised assets or liabilities denominated in a currency other than the functional currency of the Group to which they relate. For presentation purpose, the amounts of the exposure are shown in United Stated dollars, translated using the spot rate at the end of reporting period.

### (ii) Sensitivity analysis

The following table indicates the approximate change in the Group's profit/loss before tax in response to reasonably possible changes (e.g.±10%) in the foreign exchange rates to which the Group has significant exposure at the end of reporting period.

	202	<u>20</u>	<u>2019</u>			
	Increase	Decrease	Increase	Decrease		
	US\$	US\$	US\$	US\$		
British Pound (GBP)	2,031	(2,031)	14	(14)		
Euro (EUR)	5	(5)	47,775	(47,775)		
Hong Kong Dollar (HKD)	(216,732)	216,732	(199,061)	199,061		
Indonesian Rupiah (IDR)	10,508	(10,508)	25,559	(25,559)		
Singapore Dollar (SGD)	2	(2)	2	(2)		
Vietnamese Dong (VND)	(51,445)	51,445	(41,769)	41,769		
Chinese Yuan (CNY)	205	(205)	795	(795)		
	(255,426)	255,426	(166,685)	166,685		

The sensitivity analysis has been determined assuming that the change in foreign exchange rates had occurred at the end of reporting period and had been applied to the Group's exposure to currency risk for the variables.

The stated changes represent management's assessment of reasonably possible change in foreign exchange rates over the period until the next annual reporting period. In this respect, it is assumed that the pegged rate between the Hong Kong dollar and the United States dollar would be materially unaffected by any change in movement in value of the Hong Kong dollar against other currencies. Results of the analysis as presented in the above table represent an aggregation of the effects on Group's profit after tax and equity measured in the respective functional currencies, translated into United States dollars at the exchange rate ruling at the end of reporting period for presentation purposes. The analysis is performed on the same basis for 2019.

### (d) Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash. Due to the dynamic nature of the underlying businesses, the Group aims to maintain flexibility in funding by keeping committed credit lines available.

### NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

### 30. FINANCE INSTRUMENTS (CONT'D)

### (e) Interest rate risk

The Group has no significant interest bearing assets and liabilities except secured bank borrowings. Its expenses and operating cash flows are substantially independent of changes in market interest rates. Carrying amounts of net financial liabilities as at March 31 that exposed to interest rate risks were as follows:

	<u>2020</u>	<u>2019</u>
Financial liabilities bearing variable interests:  Secured bank borrowings	US\$	US\$
- term loans, discounted bills loans and trust receipt loans Unsecured bank borrowing- term loan	(17,888,494)	(7,188,799) (346,460)
	(17,888,494)	(7,535,259)

### (ii) Sensitivity analysis

At March 31, 2020, it is estimated that a general increase/decrease of 100 basis points in interest rate, with all other variables held constant, interest income and profit before taxation for the year ended March 31, 2020 would decrease/increase by a net amount of US\$4,472 (2019: US\$1,884). The carrying amount of financial asset/liability measured at amortized cost and the carrying amount of financial asset/liability bearing interest rate measured at fair value would not be affected by the assumed 100 basis points increase/decrease in interest rate.

Although a financial asset or financial liability may be subject to interest rate risk, its carrying amount may not necessarily be affected by the assumed 100 basis points increase in market interest rates.

### NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

### 31. FAIR VALUE MEASUREMENT

Financial assets measured at fair value

The following table presents the fair value of the Group's financial instruments measured at the end of the reporting period on a recurring basis, categorised into the three-level fair value hierarchy as defined in HKFRS 13, Fair value measurement. The level into which a fair value measurement is determined with reference to the observability and significance of the inputs used in the valuation technique as follows:

- Level 1 valuations: Fair value measured using only Level 1 inputs i.e. unadjusted quoted prices in active markets for identical assets or liabilities at the measurement date.
- Level 2 valuations: Fair value measured using Level 2 inputs i.e. observable inputs which fail to meet Level 1, and not using significant unobservable inputs. Unobservable inputs are inputs for which market data are not available.

Fair value measurements as at March 31, 2020 categorised into

• Level 3 valuations: Fair value measured using significant unobservable inputs.

Level 2 Level 3 Level 1 Fair value measurement Financial assets at FVOCI - Structured products 1,258,760 Fair value measurements as at March 31, 2019 categorised into Level 1 Level 2 Level 3 Fair value measurement Financial assets at FVOCI - Structured products 1,897,761

During the years ended March 31, 2020 and 2019, there were no transfers between Level 1 and Level 2, or transfers into or out of Level 3. The Group's policy is to recognise transfers between levels of fair value hierarchy as at the end of the reporting period in which they occur.
