## **STATEMENT OF THE GENERAL DIRECTOR**

The General Director of Pearl Global Vietnam Co., Ltd. (the "Company") presents this report together with the Company's financial statements for the year ended 31 March 2025.

### **THE GENERAL DIRECTOR**

The Executive Officer of the Company during the year and to the date of this report is as follows:

Mr. Gurusankar Gurumoorthy                      General Director

### **GENERAL DIRECTOR'S STATEMENT OF RESPONSIBILITY**

The General Director of the Company is responsible for preparing the financial statements, which give a true and fair view of the financial position of the Company as at 31 March 2025, and its financial performance and its cash flows for the year then ended in accordance with Vietnamese Accounting Standards, accounting regime for enterprises and legal regulations relating to financial reporting. In preparing these financial statements, the General Director is required to:

- Select suitable accounting policies and then apply them consistently;
- Make judgments and estimates that are reasonable and prudent;
- State whether applicable accounting principles have been followed, subject to any material departures disclosed and explained in the financial statements;
- Prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business; and
- Design and implement an effective internal control system for the purpose of properly preparing and presenting the financial statements so as to minimize errors and frauds.

The General Director is responsible for ensuring that proper accounting records are kept, which disclose, with reasonable accuracy at any time, the financial position of the Company and that the financial statements comply with Vietnamese Accounting Standards, accounting regime for enterprises and legal regulations relating to financial reporting. The General Director is also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of frauds and other irregularities.

The General Director confirms that the Company has complied with the above requirements in preparing these financial statements.

---

**Gurusankar Gurumoorthy**  
**General Director**

No.: *1128* /VN1A-HN-BC

## INDEPENDENT AUDITORS' REPORT

**To: The General Director of Pearl Global Vietnam Co., Ltd.**

We have audited the accompanying financial statements of Pearl Global Vietnam Co., Ltd. (the "Company"), prepared on 29 April 2025 as set out from page 04 to page 27, which comprise the balance sheet as at 31 March 2025, the statement of income, the statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

### *General Director's Responsibility for the Financial Statements*

The General Director is responsible for the preparation and fair presentation of these financial statements in accordance with Vietnamese Accounting Standards, accounting regime for enterprises and legal regulations relating to financial reporting and for such internal control as the General Director determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

### *Auditors' Responsibility*

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Vietnamese Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the General Director, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

**BALANCE SHEET**

**NOTES TO THE FINANCIAL STATEMENTS**

*These notes are an integral part of and should be read in conjunction with the accompanying financial statements*

**1. GENERAL INFORMATION****Structure of ownership**

Pearl Global Vietnam Co., Ltd. (the "Company"), formerly known as Flexcon Vietnam Joint Venture Co., Ltd., was incorporated in Vietnam as a foreign-invested joint venture with for 30 years from the date of Investment Registration Certificate No. 12/GP-BG dated 11 August 2003 issued by Bac Giang Provincial People's Committee, and its amendments. The latest amendment (4th amendment) was dated 27 February 2020. The latest amended Enterprise Registration Certificate (10th amendment) dated 09 April 2025.

The parent company of the Company is Vin Pearl Global Vietnam Limited (incorporated in Hongkong). The ultimate parent company of the Group is Pearl Global Industries Limited (incorporated in India).

The total number of the Company's employees as at 31 March 2025 was 1,523 (as at 31 March 2024: 1,483).

**Operating industry and principal activities**

The Company operates in the garment industry.

The principal activities of the Company are to manufacture garment products, provide garment processing services to customers, provide laundry and embroidering services and ensure more than 80% of products to be exported per the first Investment Registration Certificate.

**Normal production and business cycle**

The Company's normal production and business cycle is carried out for a time period of 12 months or less.

**Disclosure of information comparability in the financial statements**

Comparative figures are the figures of the Company's audited financial statements for the year ended 31 March 2024.

**2. ACCOUNTING CONVENTION AND FINANCIAL YEAR****Accounting convention**

The accompanying financial statements, expressed in Vietnam Dong (VND), are prepared under the historical cost convention and in accordance with Vietnamese Accounting Standards, accounting regime for enterprises and legal regulations relating to financial reporting.

The accompanying financial statements are not intended to present the financial position, results of operations and cash flows in accordance with accounting principles and practices generally accepted in countries and jurisdictions other than Vietnam.

#### Financial year

The Company's financial year begins on 01 April and ends on 31 March of following year.

### 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies, which have been adopted by the Company in the preparation of these financial statements, are as follows:

#### Estimates

The preparation of the financial statements in conformity with Vietnamese Accounting Standards, accounting regime for enterprises and legal regulations relating to financial reporting requires the General Director to make estimates and assumptions that affect the reported amounts of assets, liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the financial year. Although these accounting estimates are based on the General Director's best knowledge, actual results may differ from those estimates.

#### Cash

Cash comprises cash on hand and bank demand deposits.

#### *Held-to-maturity investments*

Held-to-maturity investments comprise investments that the Company has the positive intent or ability to hold to maturity, including term deposits.

#### *Loan receivables*

Loan receivables are measured at cost less provision for doubtful debts. Provision for doubtful debts relating to loan receivables is made in accordance with prevailing accounting regulations.

#### Receivables

Receivables represent the amounts recoverable from customers or other debtors and are stated at book value less provision for doubtful debts.

Provision for doubtful debts is made for receivables that are overdue based on the General Director's assessment and estimate, or when the debtor is in dissolution, in bankruptcy, or is experiencing similar difficulties and so may be unable to repay the debt.

#### Inventories

Inventories are stated at the lower of cost and net realisable value. Cost comprises direct materials and where applicable, direct labour costs and those overheads that have been incurred in bringing the inventories to their present location and condition. Inventories are accounted for using the perpetual inventory method. Cost of merchandises comprises cost of purchase and other directly attributable expenses. Cost is calculated using the weighted average method. Raw materials are valued at actual cost of purchase; finished goods and work in progress are valued at standard cost approximating actual cost of direct materials, labour and related manufacturing overheads based on the normal operating capacity. Net realisable value represents the estimated selling price less all estimated costs to completion and costs to be incurred in marketing, selling and distribution.

The evaluation of necessary provision for inventory obsolescence follows prevailing accounting regulations, which allow provisions to be made for obsolete, damaged, or sub-standard inventories and for those which have costs higher than net realisable values as at the balance sheet date.

#### **Tangible fixed assets and depreciation**

Tangible fixed assets are stated at cost less accumulated depreciation.

The costs of purchased tangible fixed assets comprise their purchase prices and any directly attributable costs of bringing the assets to their working condition and location for their intended use.

The costs of self-constructed or manufactured assets are the actual construction or manufacturing cost plus installation and test running costs.

Tangible fixed assets are depreciated using the straight-line method over their estimated useful lives as follows:

	<u>Years</u>
Buildings and structures	5 - 25
Machinery and equipment	5 - 10
Motor vehicles	7 - 10
Office equipment	3 - 10

Loss or gain resulting from sales and disposals of tangible fixed assets is the difference between the net proceeds from sales or disposals of assets and their carrying amount and is recognised in the income statement.

#### **Leasing**

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

Leases where substantially all the rewards and risks of ownership of assets remain with the leasing company are accounted for as operating leases. Rentals payable under operating leases are charged to the income statement on a straight-line basis over the term of the relevant lease. Benefits received and receivable as an incentive to enter into an operating lease are also spread on a straight-line basis over the lease term.

Assets held under finance leases are recognised as assets of the Company at their fair value at the inception of the lease or, if lower, at the present value of the minimum lease payments. The corresponding liability to the lessor is included in the balance sheet as a finance lease obligation. Lease payments are apportioned between finance charges and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are charged to profit or loss.

Assets held under finance leases are depreciated over their expected useful lives on the same basis as owned assets. However, when there is no reasonable certainty that ownership will be obtained by the end of the lease term, assets are depreciated over the shorter of the lease term and their useful lives, as follows:

	<u>Years</u>
Machinery, equipment	5 - 10

#### **Intangible assets and amortisation**

Intangible assets comprise land use rights, land compensation expenses, site clearance expenses and software that are stated at cost less accumulated amortisation. Land use rights, land compensation and site clearance expenses are amortised using the straight-line method over the Company's operating duration of 30 years. Software is amortised using the straight-line method over the period of 5 years.

#### **Prepayments**

Prepayments are expenses which have already been paid but relate to results of operations of multiple accounting periods. Prepayments comprise costs of tool and dies issued for consumption, insurance premium, maintenance and repair expenses, operating lease expenses and other prepayments, which are expected to provide future economic benefits to the Company. These expenditures have been capitalised as prepayments and are allocated to the income statement using the straight-line method in accordance with the current prevailing accounting regulations.

#### **Payable provisions**

Payable provisions are recognised when the Company has a present obligation as a result of a past event, and it is probable that the Company will be required to settle that obligation. Provisions are measured at the General Director's best estimate of the expenditure required to settle the obligation as at the balance sheet date.

#### **Revenue recognition**

Revenue from the sale of goods is recognised when all five (5) following conditions are satisfied:

- (a) the Company has transferred to the buyer the significant risks and rewards of ownership of the goods;
- (b) the Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- (c) the amount of revenue can be measured reliably;
- (d) it is probable that the economic benefits associated with the transaction will flow to the Company; and
- (e) the costs incurred or to be incurred in respect of the transaction can be measured reliably.

Revenue of a transaction involving the rendering of services is recognised when the outcome of such transactions can be measured reliably. Where a transaction involving the rendering of services is attributable to several years, revenue is recognised in each year by reference to the percentage of completion of the transaction at the balance sheet date of that year. The outcome of a transaction can be measured reliably when all four (4) following conditions are satisfied:

- (a) the amount of revenue can be measured reliably;
- (b) it is probable that the economic benefits associated with the transaction will flow to the Company;
- (c) the percentage of completion of the transaction at the balance sheet date can be measured reliably; and
- (d) the costs incurred for the transaction and the costs to complete the transaction can be measured reliably.

Interest income is accrued on a time basis, by reference to the principal outstanding and at the applicable interest rate.

#### **Borrowing costs**

Borrowing costs are recognised in the income statement in the year when incurred.

#### **Severance allowance payable**

The severance allowance for employees is accrued at the end of each reporting period for all employees having worked at the Company for full 12 months and above. Working time serving as the basis for calculating severance allowance shall be the total actual working time subtracting the time when the employees have made unemployment insurance contributions as prescribed by law, and the working time when severance allowance has been paid to the employees. The allowance made for each year of service equals to a half of an average monthly salary under the Vietnamese Labour Code, Social Insurance Code and relevant guiding documents. The average monthly salary used for calculation of severance allowance shall be adjusted to be the average of the 6 consecutive months nearest to the date of the financial statements at the end of each reporting period. The increase or decrease in the accrued amount shall be recorded in the income statement.

#### **Foreign currencies**

Transactions arising in foreign currencies are translated at exchange rates ruling at the transaction date. The balances of monetary items denominated in foreign currencies as at the balance sheet date are retranslated at the exchange rates of commercial bank where the Company usually transacts on the same date. Exchange differences arising from the translation of these accounts are recognized in the income statement.

#### **Taxation**

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit before tax as reported in the income statement because it excludes items of income or expense that are taxable or deductible in other years (including loss carried forward if any) and it further excludes items that are never taxable or deductible.

Deferred tax is recognized on significant differences between carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit and is accounted for using balance sheet liability method. Deferred tax liabilities are generally recognized for all temporary differences and deferred tax assets are recognized to the extent that it is probable that taxable profit will be available against which deductible temporary differences can be utilized.

Deferred tax is calculated at the tax rates that are expected to apply in the year when the liability is settled or the asset realized. Deferred tax is charged or credited to profit or loss, except when it relates to items charged or credited directly to equity, in which case the deferred tax is also dealt with in equity.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same tax authority and the Company intends to settle its current tax assets and liabilities on a net basis.

The determination of the tax currently payable is based on the current interpretation of tax regulations. However, these regulations are subject to periodic variation and their ultimate determination depends on the results of the tax authorities' examinations. Other taxes are paid in accordance with the prevailing tax laws in Vietnam.

4. CASH

## 27. CONTINGENT LIABILITIES

Under the signed land lease contract between the Company and Bac Giang Department of Natural and Resources, two parties have been working on assets relating to the land use after the contract is completed as prescribed by law. According to the management's assessment, the restoration cost is not reliably estimated due to unavailability of information and appropriate estimation method. Therefore, no provision for restoration and handover expenses was made and reported in the Company's financial statements for the year ended 31 March 2025.

**28. SUPPLEMENTAL DISCLOSURES OF CASH FLOW INFORMATION**

Cash outflows for purchases of fixed assets and construction in progress exclude an amount of VND 1,136,793,081 (2023: VND 1,047,139,016) representing an addition in fixed assets and construction in progress that has not yet been paid, and include an amount of VND 455,295,380 (2023: VND 8,130,383,015) representing prepayments to suppliers for purchases of fixed assets and construction in progress. Consequently, increases, decreases in accounts payable, receivable have been adjusted by the same amounts, respectively.

**29. USA RECIPROCAL TARIFFS ON VIETNAMESE PRODUCTS**

On 04 April 2025, the US Government has announced a reciprocal tariff rate of 46 percent on all Vietnamese products, a move that is expected to significantly impact Vietnam's trade-dependent economy that had been effective since 9 April 2025. After that, on 10 April 2025, the US government also announced 90 days pause on these tariffs to allow for negotiation and temporarily had been applied 10% of reciprocal tariff for all products imported from Vietnam. The Company is currently evaluating the potential impacts of these tariff on its operation and financial results and working closely with USA clients to find out appropriate solutions for following years.
